SUMMARY

Highly motivated Fullstack Web Developer specializing in frontend architecture, with a proven track record of shipping scalable, production-ready web applications. Currently delivering digital solutions for the Serang City Government and as a Fullstack & App Developer at Blue Soft IoT (Malaysia) using Next.js, React, TypeScript and Flutter. Passionate about clean, maintainable code and pixel-perfect, high-performance interfaces. POSN Informatics Gold Medalist.

PROFESSIONAL EXPERIENCE

Fullstack Web & App Developer Blue Soft IoT Sdn Bhd — Selangor, Malaysia	Apr 2026 – Present
• Build company-profile sites and internal tools for PHH (steel industry, Malaysia & Indonesia) and Blue Soft (IoT & software development). • Engineered PHH Inventory, a web app for complex steel-cutting and inventory management (React, Vite, TypeScript, Tailwind CSS). • Developed HRM App, a cross-platform employee-management app (attendance, permits, contracts, check-outs) with Flutter.	
Fullstack Web Developer Pemerintah Kota Serang (Serang City Government) — Serang, Indonesia	Aug 2025 – May 2026
• Led the development and technical upgrade of the official Serang City Government website (Next.js, TypeScript), driving digital transformation for public services. • Built the Mayor of Serang's personal website, optimizing performance and user-centric features. • Developed a civil-servant monitoring system with SPPD features (Tailwind CSS, JavaScript). • Engineered a digital reporting system and an automated attendance platform for the Serang Election Commission (KPU).	
IT Trainer (Volunteer) SMA Mekar Harum & SMK 1 Cimahi — Bandung, Indonesia	2025
• Empowered students with foundational technical skills and digital literacy. • Designed and delivered an interactive intro-to-web-programming syllabus (HTML, CSS, JavaScript) through hands-on practice.
